ABOUT ME

Hey everyone! I'm Matias. How do I describe myself? I'm a multitasking individual who can contribute various types of knowledge acquired through my curiosity in different subjects. I'm a social and empathetic person who loves making friends and working in a team, regardless of the language. I'd love to work and communicate in English, Italian, or Spanish, and I'm even open to learning another language if needed.

Lately I have been learning and working on several technological projects as a Full Stack developer, where I learned and improved the technological skills that I mention below. To be honest, I prefer the Front End, which is what I'm currently looking for, but I'm always open to learning new technologies. I can also contribute design and marketing insights and experiences because I've been interested in those areas for some time and have taken relevant courses.

I hope my experience and skills will be useful for you. Appreciate having you here!

TECH SKILLS:

Java Script (ES6), Vanilla Js, HTML, CSS modules, React, Bootstrap, SASS, VITE, Redux Node.js, Express, Morgan, Nodemon, Sequelize, Jquery, PostgreSQL, Git – GitHub, AJAX
AXIOS, FETCH, SCRUM, Trello, Vercel, Postman, Thunder client,

DESIGN SKILLS:

PROJECTS

FULL STACK WEB DEVELOPER - <BLACK GROUP DESIGN>

Oct. 2023 - Dec. 2023

Academic experience. Henry Bootcamp.

As a team of 7 individuals developers, successfully developed a comprehensive E-commerce platform for the sale of designer furniture. Both the customer and the site administrator will have a complete and realistic virtual business experience. We were able to accomplish this project thanks to the technologies we learned during our time at the Henry bootcamp.

Front: Vite, Css modules, React, Redux, Java Script, HTML, Figma

Back: Express, nodemon, dotenv, Postman, Thunder client, node js, morgan, Axios, JQuery

Base de datos: PostgreSQL y Sequelize.
